EXPERIENCE

Present
-

INTERACTIVE PRODUCER

Google (via Adecco) | Google Store

2018

- Develop GStore E2E lifecycle. Define milestones, assess / mitigate risks, and ensure business objectives, deadlines, and budget requirements across mobility verticals are met
- Collaborate with cross-functional leads to navigate competing priorities and project challenges while maintaining quality deliverables and timely launch
- Oversee vendors to ensure GStore design and copy align to the creative brief and the wider brand strategy
- Created, piloted, and lead the process for international teams to develop bespoke evergreen pages for their specific locales
- Member of the core team integral to the success of the Fitbit x GStore integration. Manage marketing and production needs, aligning to both internal and external business objectives
- Review and evaluate project workflow to streamline processes, mitigate risks, and monitor overall project budget and health

2020
-

INTEGRATED PRODUCER

MediaMonks | HP, Netflix, Snap, Clif Bar

2018

- Managed all phases of production, including concepting, budgeting, UX/UI, development, QC, and delivery
- Collaborated with Snap stakeholders to develop and debut their social presence across Spectacles brand channels globally
- Established and adapted workflows to meet cross-functional team and stakeholder objectives
- Initiated a global social campaign and video shoots across 16 domestic and international cities for HP's home business printers
- Lead global production teams and media partners to develop, QA, and launch campaign materials

2018
-

SENIOR DIGITAL PRODUCER

TBWA\Media Arts Lab | Apple

2015

- Developed project strategy and roadmap across \$4M+ global digital campaigns
- Initiated ideation and development of digital experiences to shape deliverables with optimal user experience in mind
- Lead international teams to develop effective bespoke global campaigns
- Managed and trained junior to mid-level team members in problem-solving, course correcting, and streamlining processes
- Optimized workstreams and proactively identify efficiencies throughout production
